## Customer Reviews

Eat Fat Get Thin-- Seriously? This has surely captured my attention and held it for quite some time. How in the world will I be thin if I eat fat? Well, this book has answered it and cleared some cob webs too. And I must say that it has done the explanations in an easy to comprehend way. And what is mind-blowing too is that this book has more than 350 recipes that will surely help anyone who will decide to go forward this endeavor. And this book made me understand that it's not about eating fats, it's all about eating carbs.

I'm always curious about ketogenic diet until I bought this book. What this book offers which can not be found from other ketogenic books is that it allows you to absorb information better letting you discover the things one should avoid and helping you choose the right kind of decisions. Would highly recommend the book to anyone who loves to cook.

This is a great cookbook guide. A complete cookbook recipe for people who wants to lose weight without reducing fat intake rather than carbohydrates which is utilized more quickly. Ketogenic diet originally is for people who are suffering diabetes. This book covers everything from what ingredients, to recipes to measuring the progress, how to commence the keto diet and so much more. I recommend this read to anyone interested in the keto and keto diet recipes.

My doctor recommended me to follow this book to control over my cholesterol. At first I was confused with the tittle â ^Eat fat get thinâ ™. I thought how a person can become thin eating fat, it will make you fatter.I was wrong about fat, our body need fat to cut out the unnecessary fat. In this book there were food which had good fat that are necessary in our body and that increase our metabolism power. This book is awesome and had diet plan for 30 days. I had found difference in me in just one week and it is awesome. Just need to follow this book to reduce our excess weight.Following this book was not hard, these foods were very healthy and it is delicious too. Challenge yourself for 30 days and enjoy the result.

What I like about this book is it uses a step-wise approach to take you through the Eat Fat Get Thin Diet and further beyond into the practical application of making healthy and super tasty recipes. You will find a FULL nutritional breakdown at the end of each recipes, so you can keep track of your calories & macro's.This lifestyle expounds on a practical and sustainable way to nourish our bodies to maintain life long health, physical performance and overall wellness, I believe no other book holds the same content like this one.

Confusing, but it really is as follows: Fatty foods do not affect the increase of weight and does not distort your health. Entering large amounts of carbohydrates causes a problem with the weight. Since I'm on a diet, I am myself convinced of this. This book is a true treasury of good recipes. And not only that in one place you have good ideas, but here you can find meals for almost a year. Dishes seem to be very tasty, foods that are used you can easily find in any market, and above all, it is very healthy. Sincere recommended!

This book provides a detailed explanation about how ketogenic diet promotes weight loss and how it can be beneficial to our health.The comprehensive book on ketogenic dieting for weight loss or athletic performance. Exhaustively researched, thoroughly footnoted, and detailed on every sphere of training, nutrition, and supplementation. Quick and relatively easy read.Well, this book is really a

great introduction for beginners like myself to ketogenic diet. Great book to begin understanding ketogenic diet as a beginner.

I've been looking for a book like this to give to my sister. She weighs too much after giving birth and getting a bit depressed about it. I decided to get this and see if it'll somehow work for her and she likes it. The book is real as per my sister. I mean, this kind of diet guide will really help in losing weight without sacrificing eating. I even learned something from it as well. As far as I'm concerned, eating fats does make one fat but it wasn't. The book clearly explained everything about it. This is undoubtedly a great one that can be recommended to all.
