Customer Reviews

This was the book that was required for the course that I am doing for Medical Assistant Back Office. Every student had to buy the book because the College no longer provides this text because of budget cuts. I am very pleased with the book and it is in perfect condition and arrived in a very timely manner so thank you.

Health science Technology it is awesome! a lot of medical information on it, thank you for selling this

wonderful book. (100%) thank you again and I will recommend it to other students.

This book was used to complete a nursing class it came very fast as was needed for the class and I used it and was able to pass it on to others.

This was an awesome purchase. Not only was the price a steal, but the timely delivery and excellent condition of the book was surprising. I saved about 75% off of the campus bookstore price. I searched several sites and ran into the usual walls: expect delivery in 2-3 weeks, book condition acceptable or return (who has time to send a book back, that would be into last half of the semester), save 3% off of new :). I don't often do reviews, unless its a bad one cause I don't want people to make the same mistake I have. Because this was such a pleasant experience, I felt compelled to do so, and say Thanks.

Excellent book for those entering the medical field.

prompt delivery, I will buy again.

A requirement for my Son class

good
