Cam Girl 2.0: Make Boss Money At Home While Keeping Your Panties On

Synopsis

How to make money from home on your own terms, without the secrecy and shame sometimes associated with sex work. Includes information on how to begin your career, from technical set up to how to find an audience and develop it - and from making fans for life to dealing with common pitfalls. This book combines insights from psychology, from business studies and from observations of and conversations with successful cam girls to form a cohesive understanding of what makes for a thriving and happy model. At the end of the day, being a camgirl is about connecting with people. It's about using the technological tools developed over the last 25 years to satisfy our deepest longings as human beings - to know and be known.

Customer Reviews

Really thought this was a great read. Its the best book on here in my opinion as far as camgirl info goes. Extremely informative and has a lot of good examples of great cammodels. I found several more awesome camgirls to watch and learn from.

I love that this was written by someone on the customer end of the spectrum. Definitely worth reading, as everything it says relates directly to things I've learned in business classes (especially

regarding building a dedicated client base). I think the individuals who assumed that the author was putting 'nude' cam models down was just reading into the text wrong, as I've been a professional nude and fetish model myself and didn't see anything derogatory regarding the industry or its workers. If you're going to cam READ THIS.

I love it. I put 5 stars cause she really took time to explain the psyche of both model and customer. which should be helpful to any camgirl who wants to be non nude. I highly recommend this book. I've been a cam girl for years and noticed girls that stay clothed some how make more money

I actually learned a lot from this book. I've been a cam model in my spare time for a few years before i got this book and was having trouble making it worth it. this book helped me set a lot of things into perspective and helped me realize what i thought but wasnt 100% sure

I enjoyed reading this book. I felt that it had a wealth of information in it. This book explains more than just being a non-nude model. It talks about the business side and how you can do well on My Free Cams.

It had a lot of examples and explanations which was great. I thought it was nice that this book touched upon what kind of equipment you need because there is a sea of products out there and it can be hard to choose the best product for your budget. Compared to a lot of reads on this topic out there, this one would be my recommendation after How to succeed as a Webcam Model.
