Tony Robbins is one of the few life coaches and self-help authors that I respect. I am just finishing one of his books and I listened to a podcast where he was a guest and he blew me away. This book is a compilation of his thoughts and lessons and the author points out the key thing in them and what to do with that information. It is clear that the author knows a lot about Robbins and his writing and I think this is a good book for anyone who is not yet familiar with him.
