Customer Reviews

Very informative and well-written. It's long and contains a lot of information to absorb so it's slow reading. glad I bought it. Starts out at the beginning and works up to more advanced techniques.

LOTS of INFORMATION HERE!!----probably too much honestly (as another reviewer said previously before I purchased this book)---none the less, if you can swim through all the details there's lots of good information here.....I wish someone would make a FB marketing book super simple on a STEP by STEP BASIS for those of us who don't need all the quagmire of trying to FIND IT in a book this size!!

Andrea Vahl does it again, along with her co-authors. For anyone who cares about, is interested in or makes a living with social media this is one of those books that you should have at your desk at all times. Consider it your guidebook to all things Facebook Marketing related.

I have been following Andrea Vahl for several years now and can say that there are very few people (if any) who know more about Facebook marketing than she does. I'm glad to see the new edition of the book is out -- I'm not finished yet, but what I've seen so far is terrific.

Another great book in a great series. Even if you are not a novice, this series is outstanding because it is filled with references and pointers to great resources!

I bought this book after the company I work for offered me the job of being in charge of their Facebook page. I found this book to be very helpful in giving me ideas of things to do, and not to do. Highly recommend for anyone running a business Facebook page.

This book gave me the knowledge to begin my Facebook business adventure. Now I have an online store and teaching thousands of people.

Lots of great information and tips on how to have a better business page, not just stuck with the page your grandchild made for you.
