## Customer Reviews

Author Jim Slingluff has paddled every navigable mile of Arizona's Verde River, plus many of its tributaries and his expertise really shows through in this book. Slingluff is a die-hard canoeist and this book is full of information specific to canoeists, though it's also a great guidebook for kayakers and rafters. Slingluff breaks the river down into sections that can be canoed, beginning with the headwaters at Morgan Ranch near Prescott, all the way down to the confluence with Arizona's Salt River, near Phoenix. He also describes every rapid and potential hazard encountered on the river. This information may be dated since the book was last revised in 1996, but it's a great way to get an idea of what you're facing in a trip down the Verde. I haven't yet made my own trip down the Verde, but when I go, the Verde River Recreation Guide is going with me.

I purchased this book as a guide to the Verde river, but it was really rather vague. It detailed the smells and sounds in the morning, but failed in giving me much about the river and alternative access points and times it takes to raft to different points. This book is crap for anyone rafting the Verde.

Classic River info! Not much on the Verde as it's an extremely fickle river! But when she runs she can be pretty awesome! Great book for a better price!
