# After The Car Crash!: A Comprehensive Guide For Victims And Attorneys To Recover Your Health And Protect Your Rights!

## Synopsis

Crash! Bang! You are in a car accident. What do I have to do to recover my health and get compensated? The research documents that over 50% of people injured in car accidents NEVER FULLY RECOVER THEIR HEALTH. You don't know that your insurance company with catchy slogans to make you believe they have your best interest at heart is lying in wait to trap you with tricks and tactics to minimize your care and compensation to protect their profit margins and huge CEO compensation. Do you need an attorney? How much will all this cost? In this book, a 25 year veteran physician in the care of these injuries who has interfaced with attorneys and insurance companies teaches you the steps to take to get your injuries healed properly and your wallet made whole. These are secrets the multi-billion dollar insurance industry does not want you to know.

## Customer Reviews

Having been involved in an accident myself; like most people or their relatives, in my own opinion I believe this book is one of the most or the most comprehensive books available on the subject matter of car accidents. The book is a wonderful A to Z reference tool which covers all suspects of

car accidents, both from a legal perspective as well as from a medical one. The physical objective of the information contained with its pages is to help you recover from your injuries. The financial objective is aid in your fiscal fitness as well by sharing secrets the insurance companies want to remain secret from the general public. For removing the veil of secrecy regarding the insurance industry and sharing several statistics regarding car crashes I'm happy to give this book 5 STARS.

Some great information, I was amazed at the real-life statistics that are included. A very comprehensive book with some valuable advice. Also covers some useful information on Recovery that would certainly point you in the right direction. Bottom Line: Very comprehensive volume about accidents-legalities involved-recovery, make sure you take lots of notes!

As a fellow chiropractor, I was impressed not only with the wealth of knowledge Dr. Quigley has on this subject, but the clear language he used to teach the public about this all important part of our daily life. A must read for anyone who drives!

The latest research about car crash really surprised me, also sad. Over 50% of people injured in car accident never become round fully. I got this book very essential to help me with in the care of these injuries. This book reveals the secrets that multi-billion dollars insurance industries want to keep hide. A veteran physician of 25 years told about the steps to be taken to get injuries healed properly. There is also an informative description on the tricks and tactics the insurance companies play to minimize victim's care and compensation to increase their profit margins and protect huge CEO compensation. I found this book very essential that can play a vital role to cover my health and get compensated after a terrible car crash.

I am curious what happen next to those who car accident and how they recover their self. I browsed books here and I found this one. This book shows how strong my spine is. This book shows the head restraint in my car. I learned the 9 injuries resulting from whiplash trauma and 10 healing from auto injuries. I enjoyed reading it because there are pictures inside. This book shows the possible risks of a common medical treatment.

A car crash can happen so fast and come out of no where, I have experienced it twice in my life and it is a stressful event, full of adrenaline and sock at that moment caused me not to think clearly.

Afterwards when everything calmed down I realize how much I should have said and done, legal wise and health wise. The book is incredibly detailed and will help in all kinds of car crash scenarios, from airbags, seat belts, whiplash and much more. I like the personal experience sections that the author adds to the book, it gives it that extra insight that I could relate to. Wish that I had read this book or similar one before I went through a car crash.

After hearing all of the horror stories about being in an auto accident and not being compensated for your injuries, I thought there was no way you could ensure getting the help you need and the compensation you deserve. This book not only gives you hope that there is in fact a way to guarantee you are given the care you need and be compensated for your losses, it also walks you through step by step how to do it. This book is a must read for anybody that has been, or ever may be, involved in an auto accident!

This book is a great reference for any individual dealing with the aftermath of an accident. Anyone will benefit from the research, facts and scientific data this book provides. Great for Doctors, Lawyers and people involved with a car accident. I will use this to educate myself and others in my chiropractic office.
