A highly-readable little paperback with a different perspective of the generations; your own, those before you, and those soon to follow. The book is enjoying a good run as a best-seller, living proof many among us must be anxiety-ridden and looking for answers. Say to yourself: "Life isn't an emergency" advises Dr. Carlson, and admits this is his essential strategy on how to keep little things from taking over your life. Then, along with this, he confronts the reader with the realization (often unrecognized) that life is made up of "little things." Each of the hundred short chapters contains

ideas and true-life examples of how to work around the little things so life will be more livable and enjoyable minute-by-minute, hour-by-hour. It would seem that adopting even one of these sometimes profound, sometimes simplistic concepts of living, you can relieve stress in your life; more importantly, life will be a lot more fun. Examples: Live in the present. When you look around, it's easy to see no one has a guarantee he or she will be here tomorrow; right now is the only time we have control over. When we focus on the present moment, fear of what might happen in the future (and most of these fearful events never happen) goes away so we are more relaxed. Become more patient. Don't interrupt others or finish their sentences (a sign of impatience that says, "I'm waiting for you to finish so I can talk"). The more patient you are, the more you will accept how it really is, rather than insisting that life should be as you would like it to be. Patience adds ease and acceptance of life so essential for inner peace. Allowing the other person to finish speaking is a mark of patience which improves relationships.

I love this book because it is so small that I can carry it with me in my purse. I like to get it out on a break at work and read a chapter on what I feel I need help with; it always picks me up and encourages me. What simple and brief yet wonderful advice! As I read I highlight the areas most applicable to me so that next time I read it I can read exactly what I most need to hear. Most chapters have a space that I use for notes and comments. Keep in mind that this is not a quick read. To make real changes in your life, I recommend this book should be read slowly, one to three chapters a day. When I first began, I tried to read straight through but it just goes in one ear and out the other. You have to read a chapter, stop, and think about it to best apply it to your life and make it work for you. One of my favorite chapters is chapter six: REMIND YOURSELF THAT WHEN YOU DIE, YOUR "IN BASKET" WON'T BE EMPTY. I think the whole world should read this chapter! Here is an sample: "SO MANY OF US LIVE OUR LIVES AS IF THE SECRET PURPOSE IS TO SOMEHOW GET EVERYTHING DONE....OFTEN WE CONVINCED OURSELVES THAT OUR OBSESSION WITH OUR "TO DO" LIST IS ONLY TEMPORARY--THAT ONCE WE GET THROUGH THE LIST, WE'LL BE CALM, RELAXED AND HAPPY. BUT IN REALITY, THIS RARELY HAPPENS. AS ITEMS ARE CHECKED OFF, NEW ONES SIMPLY REPLACE THEM. THE NATURE OF YOUR "IN BASKET" IS THAT IT'S MEANT TO HAVE ITEMS TO BE COMPLETED IN IT--IT'S NOT MEANT TO BE EMPTY....REMEMBER THAT NOTHING IS MORE IMPORTANT THAN YOUR OWN SENSE OF HAPPINESS AND INNER PEACE AND THAT OF YOUR LOVED ONES. IF YOU ARE OBSESSED WITH GETTING EVERYTHING DONE, YOU'LL NEVER HAVE A SENSE OF WELL-BEING! IN REALITY, ALMOST EVERYTHING CAN WAIT...
