## Customer Reviews

Gift for my ambitious son heading to college. He loved it. It certainly inspires to see the level of passion, craftsmanship and pride that goes in to many of these "toys". I know some people would like see everyone shopping Walmart (I won't say Costco, they have great stuff!) and driving a Prius but this is a testament to free market capitalism at its best. Without these toys, legions of fine artists, designers, craftsmen and engineers would be out of work and the world would be a little less beautiful. Generous coffee table conversation book! Would make a nice host gift as well.

I like exclusive toys for men and first class service... L.B.

Gorgeous book! My husband and sons loved it!

Book was clean and right size

well done
