## Customer Reviews

If there was an option to give a book 6 stars, that's the rating I'd give this book. If you've ever wanted to make a bit of extra money, if you need to start a small home-based business and have just \$100 to invest to get going (or not even that much), if you've tried eBay selling before without much luck - this is the book that will tell you exactly how to be successful, step-by-step. I thought I knew how to sell on eBay, but this book gives you strategies that I'd never thought of or read about anywhere else before. Where to source good merchandise for cheap and sell it quickly for a good profit, and exactly how to grow your business as big as you want it - to add to your income or replace your current job, by a home-based entrepreneur (and busy mom of 4) who has been there, made it work, and written the best how-to book I've read this year! Well-written, very practical, highly recommended.

I've often purchased from eBay, but thought that selling items there would be a complicated process. I just didn't want to go there. This little book packs a lot of great information about selling on eBay, and suddenly I find myself looking around my house, and seeing items in a whole new light! 9 Easy Ways doesn't waste any words... Michelle Angell gets to the point, and gets you the information you need to start making money on eBay.

This book is my kick in the pants, Ebay here I come! Very clearly written "Ebay For Dummies." I listed one thing on ebay several years ago and it seemed like too much trouble at the time. I've been wanting to really get into it but afraid to do so. Thank you for the information and inspiration.

Michele Angell has the stuff. She lays out simple tips and tricks for turning items found in your closet, your local thrift shop, garage sales, or any bargain from a local retailer into a pure goldmine. In easy to understand language and categories, the author has suggestions for bargain-hunting in order to determine the best brands to invest in and pricing these items to sell for hefty profits by cuing into the emotional buying that leads to bidding wars.

My son has been asking me for years how to make money on ebay. I had no idea. After reading this I told him this is your answer. He read it and it gave him the confidence to put some items up for sale, and so far things are moving in the right direction. He can't wait to continue his search for treasures.

I tried one method and had a sale within a day for \$200 and then two days later for \$110. This is the high speed on ramp to making steady money on ebay. Anyone can read this concise book and choose a method or methods that appeals them and make good to great money. I am so glad I bought this. Now my wife is reading it and she is going to try a method today!

Usually, I just sit and wonder about these types of books; but, this book not only pulled me in, it delivered everything it promised. I got this book because I want to downsize into a smaller place, eventually retiring into an rv. Once I retire, I want to travel and still have a way to make money. I believe this will be one of my go to books for downsizing now; and again later for making money on the go.

The book is very thorough with step by step instructions and advice on how everything works. Most of the ideas in the book never even crossed my mind. Everyone has something in their house that they want or need to get rid of. This is a perfect way to do it. My wife and I will be going through the kids closet and garage very soon!
