## Customer Reviews

The subject is hyper-specific, but in my opinion, the book could be organized with subheadings, term definitions in call out form, and a clearer summary for each chapter. Often the authors will restate a quote without adding any dimension or understanding to it.

The purchase I made came earlier than expected and definitely before my class started. The reason I said that because I chose regular mailing so I was satisfied with my purchase.

The book was arrived on time. Bought it for to help me pass the class. It was a lot of reading though.
