Customer Reviews

This book is a breath of fresh air. It's very reader-friendly, clear to understand and what I love most it cuts to the chase without the wordiness. Each page provides graphics stills as examples to help the reader comprehend the given topic. One useful feature about this book is located at the end of each chapter in where you'll be able to find a chapter summary along questions you should ask yourself, and group questions in order to test yourself in what you have learned. As a fashion merchandiser, and a future Buyer this will be one of my "Go-to" books at all times. because, the book covers a variety of subjects that are useful for everyone in this industry and, is relevant to today's society.
