My kid loved it. This is required for her schooling, and she is already pouring over the chapters getting ready for the next semester.

the book was what i was expected to have for my class. i bought it on line to save money

Pencils, pen, highlighted marks on every page. Writing on every page, unable to read some paragraphs in the books do to all the writing. Stickies were left on the pages. Not good quality, wish I would have been able to pay less
