## Customer Reviews

This was a very helpful guide. I loved this game whenever I was younger, and now that it is on mobile, it is awesome. This ebook touched every thing I was looking for. The only reason I gave it a 4 star rating instead of 5 stars is because I would have liked to see a walkthrough. But then again, I might just be me being very "picky". Overall, I would definitely recommend this.

this guide goes way into depth about all the bosses and characters! And great STRATS

This is a amazing book when It was on the computer I would always used to play this game with my friends but I would always loose now that I read the ebook I cant loose overall recommended

Book was so good best book I ever read in my whole entire life defiantly having my friends read thisBoring

This was very good!
